PROFILE

Software developer and founder of ONQST with a Master of ICT, building applications, connected workflows and Mac-hosted automation. I implement React/TypeScript interfaces, Node.js/Express and Python APIs, SQL data rules and recovery paths. Experience includes team software delivery through ACS WIL and practical business workflows for household collaboration, billing and property operations.

RELEVANT EXPERIENCE

Developer / Programmer - ACS WIL Internship (CauseConnect)

July 2026 - Present | Internship team of 10

- Implemented React campaign interfaces and Node.js/Express APIs for category retrieval and authenticated public-user campaign submission, backed by MySQL.
- Added input validation, server-owned creator/pending status and backend/integration checks for ownership and pending-campaign privacy.
- Prepared regression coverage, API/setup guidance and demo documentation in a ten-person team; contributed to review and EC2 deployment checks.

Founder & Builder - ONQST

Mar 2026 - Present | Independent product studio | onqst.com

- Built web applications with React/TypeScript, Next.js and SQL-backed APIs, turning product requirements into interfaces, data rules and tested features.
- Implemented permissions, financial-record workflows and recovery paths across FlatSync and LandLIT; documented failure cases, release stages and deployment handoffs.
- Delivered What Was Drawn's Python billing API on AWS Lambda/API Gateway and private S3/CloudFront web hosting, preserving the existing domain and integrations.

Software Engineer (Internship) - UNIKRE Trading

Nov 2024 - Jan 2025 | Western Sydney University capstone-linked internship

- Used Python to compare AI-generated and human-written storefront content in a Shopify commerce capstone-linked internship.

TECHNICAL SKILLS AND WORKING METHODS

- **Workflow implementation:** Hermes, API-connected tasks and schedules, documented recovery and human approval boundaries.
- **Interfaces, APIs and data:** React, TypeScript, JavaScript, Python, Node.js/Express, SQL, PostgreSQL, MySQL and Supabase.
- **Delivery and quality:** Git, Vitest, Playwright, AWS Lambda/API Gateway, S3/CloudFront, CloudFormation/SAM and technical documentation.
- **Working method:** AI-assisted implementation using ChatGPT/Codex and Claude, with source review, automated checks and explicit release stages.

SELECTED PROJECTS

Ninja Clan / Hermes - Personal Automation

Personal project | Mac-hosted system

- **Automation:** Configured API-connected workflows across TickTick, Google Calendar, Telegram and curated Obsidian project knowledge.
- **Reliability:** Moved the working environment from Linux/VPS to Mac; documented schedules, recovery, action boundaries and approval steps for consequential actions.

What Was Drawn - Reflection Web App

Public web app; iOS review pending | whatwasdrawn.com

- **Frontend:** Built React/Capacitor card-reading interfaces, optional MediaPipe interactions and account-scoped journal screens.
- **Backend & cloud:** Implemented Python billing APIs on AWS Lambda/API Gateway and Supabase journal persistence; migrated web hosting to private S3/CloudFront with failure/recovery checks.

FlatSync - Shared-Household App

Public web app; native releases pending | flatsync.onqst.com

- **Frontend:** Built React/TypeScript chore, shopping and bill interfaces, with household joining and invitation flows.
- **Backend & data:** Implemented Supabase APIs/PostgreSQL permissions, exact-cent expense splits, repayments, recurring bills and transactional save recovery.

LandLIT - Property Operations Prototype

Prototype; fictional public demo; customer intake pending | landlit-preview.vercel.app

- **Frontend:** Built the Next.js/React/TypeScript workspace for properties, tenancies, contracts, rent, utilities and monthly review.
- **Backend & data:** Implemented authenticated, revision-checked APIs and PostgreSQL receipt allocation, credit, linked corrections and encrypted recovery.

EDUCATION

Master of Information and Communications Technology - Western Sydney University | 2023 - 2025

Professional Year (ICT), ACS Accredited - Performance Education | In progress

Bachelor of Communication (Broadcasting) - Bicol University, Philippines | 2012 - 2016

EARLIER OPERATIONS EXPERIENCE

SME Account & Loan Operations Manager - RCBC

Sep 2019 - Sep 2022 | Philippines

- Coordinated small-business account and loan operations across relationship managers, compliance teams, documentation and external stakeholders.
