

UNICE BONDOC

AI Software Engineer | Technical Project Lead | Generative AI

0492 918 530 | uniceabondoc@gmail.com | Sydney, NSW
linkedin.com/in/unicebondoc | unicebondoc.com

PROFESSIONAL SUMMARY

AI Software Engineer and Technical Project Lead with a **Master of ICT (Web and Mobile Computing)** from Western Sydney University. Built and shipped an **AI-powered chatbot** for a live Shopify e-commerce platform using **Python, OpenAI API, and LLM integrations**, and developed a **3D interactive AI portfolio website** (React, Three.js). Brings **client-facing and stakeholder coordination experience** from managing **100+ SME accounts** in regulated banking. Awarded **High Distinction (88/100)** for LLM research. A technically capable project leader who bridges AI engineering, full-stack development, and **client service delivery for SMB clients**.

PROFESSIONAL EXPERIENCE

AI Software Engineer

UNIKRE Trading (Shopify E-Commerce Store) | Sydney, Australia | Jul 2024 – Jul 2025

- **Built and deployed an AI-powered chatbot using Python, OpenAI API (GPT-4), and Voiceflow** within one week – independently scoping requirements, managing the timeline, and delivering end-to-end from concept through to live deployment.
- **Designed and developed a Shopify e-commerce website from scratch**, including storefront UI using Shopify Liquid, product catalogue configuration, RESTful API integration, and front-end/back-end implementation.
- **Integrated and evaluated multiple LLM APIs (GPT-4, Claude, Gemini, LLaMA)**, benchmarking response quality, accuracy, and relevance to select the best-performing model and iteratively refining outputs through prompt engineering.
- **Automated customer support workflows through AI chatbot deployment**, reducing manual response workload and improving response speed for the business.

SME Account and Loan Operations Manager

Rizal Commercial Banking Corporation (RCBC) | Philippines | Sep 2019 – Sep 2022

- **Managed end-to-end account operations for 100+ concurrent SME client accounts**, coordinating cross-functional stakeholders including relationship managers, compliance teams, and external clients while maintaining full regulatory compliance.
- **Delivered project-style coordination across multiple concurrent accounts**, tracking deliverables against deadlines, managing competing priorities, and ensuring data accuracy across all documentation.
- **Administered digital records, compliance documentation, and account data**, maintaining audit-ready standards and proactively mitigating operational risk through rigorous data integrity practices.
- **Delivered consultative, client-facing service to SME business owners**, conducting face-to-face consultations, managing expectations, presenting status updates, and resolving complex queries with professionalism.

Marketing and Client Relations Officer

BDO Unibank | Philippines | Apr 2018 – Mar 2019

- **Supported client acquisition and relationship management** for retail banking products, applying consultative sales skills to build a high-retention client portfolio.
- **Delivered client-centric service and managed client onboarding**, processing account documentation with high accuracy, maintaining CRM records, and building long-term trust through consistent professional engagement.

PROJECTS

Core Memories – 3D Interactive AI Portfolio Website

Technical Project Lead | unicebondoc.com | 2026

- **Led end-to-end project delivery as sole Technical Project Lead**, defining scope, managing technical risk, planning iterative development sprints, and delivering a polished, high-performance web application.

- **Architected an immersive 3D web application** featuring custom GLSL shader animations, interactive environments, and a context-aware AI chatbot powered by the OpenAI API (React 18, Three.js, React Three Fiber).

LLM Research – ChatGPT for Digital Content Creation on E-Commerce

Capstone Project | Western Sydney University | 2024 – 2025 | High Distinction (88/100)

- **Engineered a full-stack Shopify platform integrated with a custom AI chatbot (Python, OpenAI API, Voiceflow)** to measure the real-world impact of LLM-generated content on user engagement metrics.
- **Conducted rigorous dataset analysis** measuring shifts in customer trust, interaction rates, and brand loyalty – producing data-driven insights for business decision-making.

University Group Leadership Projects

Team Leader (4–5 members) | Western Sydney University | 2024 – 2025

- **AnyLogic Supply Chain Simulation (2025):** Led a team of 4–5, coordinated module development, managed integration milestones, resolved technical blockers, and presented the final deliverable to academic stakeholders.
- **Habit Tracker Mobile App (2024):** Defined feature scope, allocated tasks, tracked sprint progress using Agile methodology, and delivered a functional Flutter mobile application on schedule.

SKILLS

Project & Delivery: Agile, Scrum, IT Project Management, Stakeholder Coordination, Client Account Management, Requirements Gathering, Risk Management, Jira, Trello, Confluence, Notion, ClickUp, Microsoft Teams, Slack

Programming & Development: Python, JavaScript, HTML5, CSS3, SQL, React 18, Node.js, REST APIs, Git, GitHub

AI & Generative AI: Large Language Models (LLMs), OpenAI API (GPT-4), Anthropic Claude API, Google Gemini API, LLaMA, Prompt Engineering, LangChain, Retrieval-Augmented Generation (RAG), Pinecone (Vector Database), AI Output Evaluation, Voiceflow

Platforms & Tools: Shopify Liquid, Flutter, MongoDB, Figma, VS Code, Adobe Creative Cloud (Premiere Pro, Photoshop, Lightroom), Microsoft 365

Developing & Familiar: FastAPI, Three.js, React Three Fiber, GLSL Shaders, Azure OpenAI, Azure AI Services, Hugging Face, AWS Cloud

EDUCATION

Master of Information and Communications Technology (Web and Mobile Computing)

Western Sydney University, Sydney, Australia | Jul 2023 – Jul 2025

- **High Distinction (88/100)** – Postgraduate Project A: Research on Large Language Models and digital content generation for e-commerce.
- **Key coursework:** IT Project Management, Cloud Computing, Applied Cybersecurity, Web Technologies, Mobile Computing, Content Management Systems and Web Analytics.
- **Appointed Team Leader** across multiple group projects (teams of 4–5 members), managing deadlines, delegating tasks, and presenting deliverables to stakeholders.

Professional Year (ICT)

Performance Education, Sydney | Sep 2025 – Present

Bachelor of Communication (Broadcasting)

Bicol University, Philippines | May 2012 – 2016

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AI-900) – Microsoft – In Progress
- Microsoft Azure AI Engineer Associate (AI-102) – Microsoft – In Progress
- AWS Cloud Foundations – Amazon, 2025
